Happenings of the Day in Various Parts of the Nation's Capital.

Congressman Charles A. Nichol of Detroit is the latest discoverer of the meanness in the world.

A Detroit, whose name Mr. Nichol refuses to divulge, attempted to solve the high cost of living by cutting down his children's food.

The man gave his five-year-old boy a cent, providing the boy should go to bed without his supper. The lad accepted the bargain.

After the youngster was asleep, the father went upstairs, removed the penny from the boy's pocket, and then in the morning gave the lad a whipping, and sent him breakfastless to school as punishment for losing the cent.

P. S.—Mr. Nichol merely tells the story; he doesn't vouch for its truth.

Prom Chairmen Named

Committees Decide to Give Dance on Friday the 13th.

Carmel C. K. Cummings, of Torrington, Conn., was elected chairman of the senior prom committee of Georgetown University last night at a meeting of the committee members from the four departments.

It was decided to hold the affair in the ballroom of the New Willard Friday, April 13. Superstitious opponents to the date selection were squelched by an overwhelming vote. Because of the overflow crowd at last year's dance, the committee voted to make the prom a closed affair to undergraduates and alumni. A resolution to restrict the number of tickets to 350 was adopted unanimously.

Nerve Fatigue

What you can accomplish depends directly upon your nerve energy. Any continued eye strain, any unnecessary efforts of the focusing muscles of the eyes, wastes energy and leads to nerve fatigue.

For this reason neglect of your eyes may not only reduce your working capacity, but impair your general health.

If you have the slightest indication of eye strain consult an oculist immediately. Should he recommend glasses, we can fill his prescription so as to assure you of glasses that will be satisfactory in every detail.
